Khushi Singh

Aspiring Full-Stack Developer | BCA Student

Surat, Gujarat, India • khushisingh832048@gmail.com • github.com/khushisingh-web • linkedin.com/in/khushi-singh-9321b3424/

PROFILE

BCA student and aspiring Full-Stack Developer with a strong foundation in frontend development. Comfortable building responsive web interfaces with HTML, CSS, JavaScript, React and Tailwind CSS, and creating interactive experiences with GSAP. Currently expanding my skills into backend and full-stack development through hands-on learning and projects. Interested in building practical, user-focused web applications.

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, React.js, Tailwind CSS
Animation	GSAP, ScrollTrigger
State & Routing	Redux Toolkit, Context API, React Router
API & Tools	REST APIs, Axios, Git, GitHub, Vite, Vercel
Currently Learning	Full-Stack Web Development, Backend Development, Node.js

SELECTED PROJECTS

SkyMart — E-commerce Web Application

Developed a responsive e-commerce website with product browsing, categories, product cards, cart functionality and authentication UI. Integrated product data from the Fake Store API and deployed the application.

React • JavaScript • Tailwind CSS • REST API • Vercel

github.com/khushisingh-web/SkyMart

Redux Toolkit Todo App

Built a Todo application to practice centralized state management using Redux Toolkit, including slices, actions and reducers. Deployed the project for public access.

React • Redux Toolkit • JavaScript • Vercel

redux-toolkit-todo-app-phi.vercel.app

Personal Developer Portfolio

Designed and developed a responsive personal portfolio with dedicated sections for About, Skills, Projects, Education and Contact. Added GSAP animations and ScrollTrigger for interactive scrolling effects.

React • Tailwind CSS • GSAP • ScrollTrigger

Personal Portfolio

EDUCATION

Bachelor of Computer Applications (BCA)

Bhagwan Mahavir University | 2024 – 2027

Currently pursuing final-year BCA with a focus on web development and practical project building.

CAREER FOCUS

Currently seeking opportunities to grow as a developer through internships, entry-level roles and real-world projects. My current focus is strengthening JavaScript and React fundamentals while progressing toward full-stack development.
